

# SHAFFER DENIES IT.

**Says He was Not in the Least Responsible for the Charges Made Which Implicated Gompers.**

NEW ORLEANS—NOV. 20.—THE SPECIAL COMMITTEE OF THE FEDERATION OF LABOR REPORTED THIS MORNING ON THE CHARGES PRESENTED AGAINST PRESIDENT GOMPERS. GOMPERS WAS COMPLETELY VINDICATED OF THE CHARGES THAT HE WAS NOT A GOOD UNION MAN. THE EVIDENCE SHOWED THAT THE RESOLUTION HAD BEEN INTRODUCED BY P. J. SHERIDAN, WITHOUT SHAFFER'S PERMISSION OR KNOWLEDGE AND THAT SHAFFER HAD NOT MADE ANY CHARGES IMPUGNING GOMPERS AS A UNIONIST. SHAFFER SAID BEFORE THE COMMITTEE THAT HE HAD ONCE CALLED GOMPERS

A LIAR, AND GOMPERS HAD CALLED HIM A LIAR. THESE EPI- THETS HAD BEEN APPLIED CONCERNING DISPUTES THAT HAD GROWN OUT OF A STRIKE OF SHAFFER'S UNION, IN 1901. THIS WAS THE ONLY DIFFERENCE BETWEEN HIM AND PRESIDENT GOMPERS.

THE FEDERATION KNOCKED OUT ALL SOCIALISTIC RESOLUTIONS AS IT DID AT LAST YEAR'S CONVENTION. THE SUBSTANCE OF WHICH REPORT WAS THAT LABOR UNIONISM COMPRISES ALL THAT IS NECESSARY OR POSSIBLE TO THE WELL BEING OF THE HUMAN FAMILY AND THE BETTERMENT OF MANKIND.

# BANKRUPT TOWN SOLD BY SHERIFF.

**So Called "Iron City of the South" Went Under the Hammer Today.**

Knoxville, Tenn., Nov. 20.—Practice of the entire town of Elizabethton, the county seat of Carter county and once heralded as "The Iron City of the South," went under the sheriff's hammer at public sale today. The sale marks the final chapter of one of the most gigantic enterprises ever floated in this section of the country. The town was projected by the Watauga Land company, which included among its backers John G. Carle of Kentucky, Senator McComas

of Maryland, Robert P. Porter and other men of national fame. The city was to be the seat of innumerable enterprises of mammoth size and as a matter of fact was actually decided upon as the location for the naval armor manufactory of the United States. All of these plans however were knocked sky high by the floods of 1901 and today the entire property including over 1,000 acres of land is estimated to not exceed \$50,000 in value.

# MOLINEUX SENIOR AS GUEST OF HONOR

**At a Banquet Given in Recognition of Public Pleasure.**

New York, Nov. 20.—Gen. Molineux is to be the guest of honor tonight at a banquet given by the U. S. Grant post, G. A. R., of Brooklyn. The affair is in recognition of the public pleasure felt at the acquittal of Gen. Molineux's son, Roland B. Molineux, at his recent trial for the murder of Mrs. Kate Adams. During

the entire four years of the aged general's worry and expense in connection with his son's misfortune his old war comrades stood steadfastly by him. Among other things they offered to furnish the funds necessary to meet the immense expense of the second trial, which offer, however, the valiant old fighter declined with thanks.

# A FROSTY PARTING

**Was That One Between the Good People of Memphis and Bearhunting Theodore, When He Departed.**

Stevens, Ala., Nov. 20.—The presidential train reached here on time at 8:15 o'clock this morning. Two minutes before the president left Memphis last night, a blast of red light illuminated the station. "General," Peter Tracy, one of the town's characters, was there to give the president a send off. He was the only one of the citizens to appear there after setting off the red, white and blue fire. The "general" advanced upon the president with a big bouquet of cut

flowers. "I have one request to make of your excellency," said he "and that is that you will deliver these posies in good condition to your superior in the White House." "I promise faithfully," replied the president, "and thank you most heartily for your thoughtfulness." General Tracy retired, happy. The absence of any number of Memphis citizens at the station to bid President Roosevelt farewell did not surprise the members of his party after the chilly reception of yesterday.

## MORE BOATS

**Like the Moccasin Wrecked in the Navy.**

Cuttsburg, N. Y., Nov. 20.—After witnessing the torpedo trial of the Moccasin today, the board of army officers, consisting of Major Murray, Captain Bailey and Captain Landers, of the School of Submarine Defense, have, it is said, tentatively agreed to recommend the construction of two submarine torpedo boats for use in connection with the school. It is here that the officers of the coast artillery—charged with the duty of defending the harbors—are trained. The officers were very enthusiastic over the performance of the Moccasin today. It being their first experience. The vessel ran a mile submerged, making a turn at the end of the course under water and rising for her first observation when about 300 yards on her homeward course. She took another observation before launching a torpedo, which went a few feet wide of the mark. The ordinance experts ascribe this to the fault of the torpedo and not to the boat. The trials will conclude tomorrow with a surface run of 10 knots for the Moccasin and a twelve-knot endurance test for the Adder, during which she will make her ten-knot surface run.

## FITZGERALD

**Will Have a Bout With Flaherty Tonight.**

New York, Nov. 20.—Willie Fitzgerald, the rugged Brooklyn lightweight and Martin Flaherty of Lowell, are reported in fine fettle for their bout which is slated to come off at New Britain, Conn., tonight under the auspices of the National Athletic club. They are to box twenty rounds at 15 pounds, ringside. As the two are considered evenly matched an interesting go is expected by the followers of the fighting game.

## NASH AND PARTY

**Will Soon Make a Tour of the Sunny South.**

Chattanooga, Tenn., Nov. 20.—Governor George K. Nash of Ohio, his private secretary and a party of iron manufacturers, arrived here today. They spent the day at Lookout Mountain. They will remain here three days and then make a tour of the south.

## A LIFE SAVED

**May be the Result of a Daring Operation.**

Performed Upon Cadet Aiken, Whose Head Was Severely Injured.

Annapolis, Md., Nov. 20.—The life of midshipman Hugh M. Aiken, injured in a recent football game, may be saved as the result of a most daring surgical operation. Yesterday Dr. Wm. W. Keen, the Philadelphia brain specialist, cut a triangular piece from the skull on top and extending to the right side of the head. One side was left connected with the skull. The bone was then forced up and the blood clot removed. Aiken regained consciousness and his mind was clear. The doctors say that Aiken has now a chance for his life.

## AN EMBARGO

**Has Been Placed on Shipments of Hard Coal.**

Reading, Pa., Nov. 20.—Notices have been received here that owing to freight blockades, the Pennsylvania railroad company has placed an embargo for one week on all shipments of coal from the anthracite mines controlled by the company.

## Live Stock Market.

## FIVE THIEVES

**Were Found and Taken Behind Prison.**

In the Body of Railroad Official Who Was Looking for Car Thief.

Chicago, Ill., Nov. 20.—When on a hunt for car thieves, Chas. Dillor, special agent for the Chicago and Northwestern railway, was shot and killed at 2:30 o'clock this morning in the yards of the railway at north California avenue and west Kensele street. His body was found with five bullets in it, lying between two lines of cars. His revolver, undischarged, was clutched in his right hand and it is supposed he had been seen upon by thieves in ambush and had only time to draw his weapon before he was shot down. Several suspects were arrested.

## FIRE DESTROYS

**Valuable Property of the Southern Pacific.**

San Francisco, Nov. 20.—Fire early this morning destroyed the Southern Pacific railway slips and ferry station at the end of Alameda mole. A large number of passenger coaches also were burned. The loss is \$400,000. Several men are missing. The flames started from an unknown cause immediately after the ferry boat Oakland, had tied up after her last trip about 1 o'clock.

## Grain and Pork.

Chicago, Nov. 20.—Closing December wheat 75½, corn 53, oats 30½; pork 15.60.

HERSH WAS DRIVING HOME AND WHEN NEAR THE INTERSECTION OF MANOR ROAD AND BROOKS AVENUE, WEST NEW BRIGHTON, HIS HORSE TOOK FRIGHT, RAN AWAY, AND SWERVING SUDDENLY, OVERTURNED THE CART, THROWING MR. HERSH WITH GREAT VIOLENCE DOWN A DEEP DITCH, BREAKING HIS NECK. HE IS SURVIVED BY A WIDOW AND FOUR CHILDREN.

# WILL NOT TRIFLE WITH COLOMBIA

**Because the Panama Project Must be Pushed Through.**

Washington, Nov. 20.—Colombia has been positively informed that if the president cannot negotiate a satisfactory treaty with Colombia for the Panama canal, he will provide for the building of a canal through Nicaragua and Costa Rica. The constitution of Colombia has been carefully examined at the state department with the result that absolutely nothing has been discovered in it to prohibit the granting of a perpetual right of way across the isthmus, or even a complete alienation of territory. Nevertheless, Minister Concha has set up this claim and has most vehemently insisted upon it.

# MILLIONS IN WAGES

**Will be the Increase If All Industrials Follow Movement of the American Cigar Company.**

New York, Nov. 20.—The industrial corporations are joining the railroads in raising the wages of the employees. The first of the industrials in the movement, is the American Cigar Co. It has ordered the pay of the 7,000 employees in Philadelphia, Camden and Trenton increased 15 percent. The sum annually involved in this increase is \$140,000. All the

## MEMBERS

**Of London Chamber of Commerce Arrive in Canada.**

Toronto, Ont., Nov. 20.—The party of distinguished members of the London Chamber of Commerce which came over recently to attend the dedication of the new home of the New York Chamber of Commerce, arrived in Toronto today, and were received by the city officials and representatives of the local commercial organizations. The visitors are to remain in Toronto two days, spending the time in viewing the various industrial enterprises of the city, and concluding their visit with a banquet tomorrow evening.

## CONFESSED

**To Having Sent Very Threatening Letters**

**To J. Pierpont Morgan, Russell Sage and Other Wealthy New Yorkers.**

Jersey City, N. J., Nov. 20.—Both Strubel, who was arrested in Hoboken yesterday, after he had called at the post office for letters addressed to A. H. Ysop, has confessed to the police that he is the author of threatening letters received by J. P. Morgan, Russell Sage and other wealthy men in New York. Strubel said that Becker who was arrested in the general post office in New York, last Thursday, was his only accomplice. The three men arrested with him, yesterday, Strubel says, were not in the blackmailing scheme.

# ANOTHER SOFT JOB.

**State Oil Inspector Cleans Up Nearly Twenty Thousand Dollars in One Year.**

Columbus, O., Nov. 20.—(Special)—F. L. Baird, state oil inspector for the First district, has filed his annual report with the governor, and it shows that his fees amounted to about \$2,000 more than Mr. John Malloy's. Inspector Baird has 12 deputy inspectors. The total number of barrels of oil inspected was 368,969, upon which fees were collected aggregating \$5,506.90.

Getting Ready For Annual Session. The Anti-Saloon league has received nearly 1,300 pledges of delegates and others who promise to be in attendance at the coming Anti-Saloon congress which meets in this city early next month.

Through the instrumentality of the league workers the ministers of Miami county met at Piqua and formed a ministerial association, whose chief effort will be to prepare the eleven municipalities of the county for local option contests. A tremendous effort will be put forth to make Miami county "dry."

Dick Will Get His Work In. It is possible that Gen'l Dick will seize upon the meeting of the Ohio Republican congressional delegation today as a seasonable opportunity to line them up for him for governor next year.

# DELEGATION FROM OHIO

**Is in Columbus Today Awaiting Positive Orders from Big Boss**

**As to Whom to Support for Speaker of the House. The Nash Ring for the Monopoly of All Offices in Sight Secures Another Plum.**

Columbus, O., Nov. 20.—(Special)—Ohio Republican congressmen to the number of 17 are in session here this afternoon to consider the position that it is deemed wise to take on the speakership contest in Washington next month.

Another Plum for the Ring. Governor Nash has decided the contest for the appointment to succeed Judge Caldwell, of Ashtabula on the common pleas bench, by appointing Theodore Hall, of the same city. Governor Nash said in explanation of his selection that there were three counties in the sub-division—Lake, Geauga and Ashtabula. Geauga already had one of the judges in the sub-division. Ashtabula is by far the largest county in the sub-division, having in fact, more people and consequently more judicial work than the

other two counties together. For this reason he felt bound to appoint an Ashtabula man. Speaker McKinnon urged the appointment of Judge Hall, the successful applicant.

Want It Ousted From Its Charter. At the request of the governor and many residents of Mansfield, Attorney General Sheeps has filed in the circuit court of this county a suit in quo warranto against the Mansfield club, to oust it from its charter. It is claimed that the club, which is formed for the purpose of instruction in athletics, has given a number of pugilistic exhibitions recently, in which there was hard fighting, and which were, on the whole, vicious and brutal. The ouster is asked for on this ground—such exhibitions being prohibited by law. Violation of the law is sufficient for the revocation of the charter of a corporation.

# MEMBER OF FAMOUS ROEBLING FAMILY

**Of Brooklyn Bridge Fame, was Married in Chicago Today.**

Chicago, Ill., Nov. 20.—A wedding of note in Chicago today was that of Miss Blanche Estabrook, daughter of Mr. and Mrs. Henry D. Estabrook, and Mr. Carl P. Roebbling, a member of the famous Roebbling family of Trearton, N. J., builders of the Brooklyn Bridge and other mammoth structures of the kind. The ceremony was performed at the home of the bride's parents in Dearborn avenue and was witnessed by a distinguished gathering of society folk from

numerous cities. Miss Grace Sanger was the maid of honor and the bridesmaids were Miss Katherine Grosscup of Chicago, Miss Geraldine Fearous of New York, Miss Lillian Wetmore of New Britain, Conn., and Miss Helen Peck of Omaha. The best man was F. W. Roebbling, of New York and the ushers were Thomas Riggs, Jr. of Washington, Dr. Thomas Smith of New York, William A. Anderson of Trenton, and Edward Ford Johnson, of Chicago.

## MISSOURIANS

**Form a Mining Company of Large Proportions.**

Jefferson City, Mo., Nov. 20.—Prominent Missourians among whom are Congressman J. W. Shackelford and S. W. Cox, of this city have become interested in the development of mining lands in Co. 1, Graham and Butler counties of this state. A corporation

under the name of the Missouri Lead and Coal company has been formed under the laws of the state of New Jersey, with a capital stock of \$1,000,000 to continue the work of developing 4,000 odd acres which have been acquired and which are said to be among the richest mineral lands in the state.

East of Lima in section 27 Bath township, J. O. Hoover has a first class well at his No. 9, on the G. R. Fetter farm, which produced 75 barrels in the first 24 hours after shot. In Richland township, the Richland oil company's No. 2, J. M. Owens, section 36, was a 15 barrel well. The Western Oil & Gas company has a light one at No. 2, Rachel Backus, in section 12 Spencer, the first days gauge showing only 12 barrels.

In Ridge township of Van Wert county, the Eastern Consolidated Oil company's No. 1, on the Wm. Foster farm, section 36, started at a 70 barrel gait. R. G. Gillespie's No. 1, on the S. Monersmith farm, section 24, was good for 20 barrels. Over in York township, the Ohio Oil company's No. 3, W. W. Williams, section 3, made only 3 barrels the first day.

In the Black Creek township field of Mercer county, Jack McCray's No. 1, on the G. W. Smalley farm, section 21, was a 10 barrel well.

## NEW WELLS

In Hancock County Are Above the Usual Average.

There are several new wells in Hancock county which are better than the average producer. The Sun Oil company has one in its No. 5, on the Wm. F. Clanner farm, section 12, Marion township which made 65 barrels, and the Deep Pay Oil company's No. 5, Lester Bright, section 24, Marion, started at 60 barrels. The Kentucky & Ohio Oil & Refining company's No. 2, M. L. Wisely in section 14 Marion, was a duster. In section 11 of this township, Maere Bros. & Co.'s No. 6, John Groth made 40 barrels, while D. R. Cratty's No. 3, on the same property was a 25 barrel.

# WHEAT STEM MAGGOT.

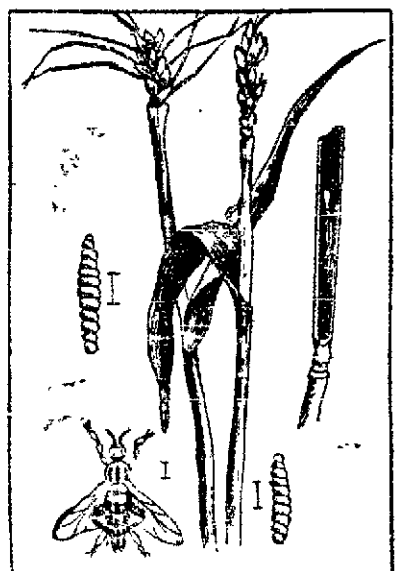

## WHEAT STEM MAGGOT.

A Worm That Cuts the Stalks—Found in Spring and Winter Wheat.

The wheat stem maggot or, as it is sometimes called, the wheat bulb worm, has proved to be rather a serious pest in some localities, and we apprehend that some precaution must be taken or it will greatly increase, says the Iowa Homestead. Its presence may be easily detected in a crop. When the maggot form of the insect enters the stalk, it cuts off the stem just above the upper joint, with the result that the head takes on a ripened appearance while the crop is yet green.

It seems to be more plentiful where both winter and spring wheat are grown in the same locality. In this case the mature insects with wings deposit their eggs upon the young plants of winter wheat. When these hatch, the larva feed upon the central part of the plants on their course downward. They remain during the winter in the surface of the ground and appear in the spring in the adult form. These in turn lay their eggs upon spring wheat plants and cause the destruction of such plants as they feed upon. However, the devastation of the first brood in the spring is seldom noticed. It is the second brood of flies whose progeny brings about the work of destroying the wheat heads. It is claimed that even a third brood makes its appearance and again deposits its eggs upon young wheat. It is our opinion that grasses will furnish the necessary breeding ground just as well as winter wheat.

The accompanying illustration shows portions of two heads of wheat that

THE WHEAT STEM MAGGOT.

have been affected by this insect as well as the pupa and larva form and mature condition of the insect. These are magnified, and conception of the real size may be obtained by the little character placed beside each figure, which indicates their exact length.

The available remedies for this insect are preventive rather than curative. Wheat should not be grown continuously on the same soil, and indeed long rotation should be introduced in which there are a variety of crops. We have known many persons who were troubled with this pest to burn their stubble, thinking in this way that they brought about the destruction of large numbers. Fortunately there is a fungus disease that attacks this maggot and fly, so that there is some likelihood of its rapid increase being prevented.

## An Ideal Animal of the Beef Type.

The first point observed in an ideal animal of beef type is his form. This will approximate the rectangular. It will show a body that is compact, symmetrical, broad, deep and close to the ground. Legs are only of use to carry the animal around. He is "straight in his lines"—that is, the lines from the top of the shoulder to the tail head and from the brisket back to the purse are as nearly parallel as possible, as are also those from the center of the shoulders to the center of the thighs, no deviation from the horizontal being allowed the top line. This will give the form a rectangular appearance.

## Budding and Top Grafting.

Among northern nurserymen and fruit growers budding is commonly practiced in July and August. Orchards are taking up this system of propagation and using it in place of or in connection with top grafting. If the buds fail to live, the branches can be grafted the following spring. The operation is more easily and quickly done than grafting.

## Dried Grass For Winter Grazing.

In portions of Montana, Wyoming and western South Dakota it is customary to fence large areas of land on the general mesa or prairie in order to protect the range until winter sets in. No hay is cut in these fenced fields. The grass simply dries up in the fall and the cattle graze on it during the winter.

## Get After the Borers.

In August we get after the borers in the orchard. We find them by the wood dust around the stem of the tree. We go after them with a sharp knife and a small wire. If we do not get the job done in August, we do it in September, says Farm Journal.

## To Hasten the Lima Beans.

Lima beans may be hastened a little by plucking the runners after the top of pole is reached, at the same time remembering that it is at the top of pole the most and best beans are set later on.

## THE STAGE.

One of the most interesting features of the original production of

'Alice of Old Vincennes,' which will be seen at the Faurot opera house on tomorrow evening, with Gertrude Coghlan in the title role, is the series of stage pictures presented in the first act of the home of the Roussillons is shown surrounded by a wealth of foliage, with waving fields of corn, and the 'silver current of the Wa-bush' in the background, clouds float idly across the sky, and after the shower a beautiful rainbow appears. So perfect is the illusion that the spectators can almost smell the sweet fragrance of the woods after the refreshing rain. In the last act the same scene is shown, but in the depth of winter, and the final curtain falls on the happy lovers, standing in the doorway in the glow of the firelight, while the snow softly falls.

Wm. A. Brady's musical farcial production 'Foxy Grandpa' will appear at the Faurot opera house next Saturday matinee and evening. The same magnificent production will be given as during the fifteen weeks run at the Fourteenth street Theatre, New York City, and the sparkling comedy will be interpreted by a splendid cast of farceurs. The author found his inspiration for the piece in the series of cartoons which have appeared from time to time in the Sunday news papers, depicting 'Foxy Grandpa' and his two mischievous grandsons in various comicallities. While taking these cartoons as the foundation principle for his play, Mr. Baker has not restricted himself to them alone, but has put the genial old gentleman and his boys in all sorts of humorous situations besides introducing a lot of original music which is said to be both pleasing and catchy. A company of about thirty people will interpret the play, including a select chorus of very pretty girls with well trained voices. The seat sale opened briskly yesterday morning.

# Now Women Suffer.

Silently and Alone They Bear With  
Patience Burdens That Would  
Crush Strong Men.

In this country today there are thousands of women whose days are filled with constant suffering. There is the dull headache, the dragging backache, the hot flashes, that awful tired feeling too sick and faint to work, too weak to go to bed. Men have little knowledge of the suffering their women go through day after day. Many times such ills are attributed to biliousness, the after-effect of a cold when it is really a derangement of the nervous system caused by female weakness or disease of the genital organs. It seems a shame that women should suffer so when there is a safe, harmless remedy that will restore to them the splendid health that makes perfect womanhood.

Zoa Phora is a remedy that cures all nervous disorders of women because it regulates the menses and relieves them of pain. It cures prolapsus because it strengthens the muscles supporting the parts, and renews the nerve force. It is marvelous in its tonic effects and women who have been tired, listless, with headaches and backaches marring their every pleasure, have in a single week been changed from suffering, morose, irritable beings to bright, happy, cheerful women who find a pleasure in their household duties because they have a new and natural strength to perform them without fatigue, simply by use of the wonderful Zoa Phora.

Zoa Phora is sold by all druggists in one dollar bottles. Write the Zoa Phora Co., Kalamazoo, Mich., for a free trial bottle and copy of their illustrated medical book, 'Dr. Pengelly's Advice to Women.' The doctor will gladly give free special advice when needed.

They say that time is money. Believe it if you will, but the next time your tailor sends you a bill go down and spend a few hours of your valuable time in chatting with him and see how much account you'll get on your winter suit.

Stepped Against a Hot Love.  
A child of Mrs. Geo. T. Benson, when getting his usual Saturday night bath, stepped back against a hot stove which burned him severely. The child was in great agony and his mother could do nothing to pacify him. Remembering that she had a bottle of Chamberlain's Pain Balm in her house, she thought she would try it. In less than half an hour after applying it the child was quiet and asleep, and in less than two weeks was well. Mrs. Benson is a well known resident of Keller, Va. Pain Balm is an antiseptic ointment and especially valuable for burns, cuts, bruises and sprains. For sale by Wm. M. Melville, old postoffice corner.

Foraker will now be satisfied with the vice presidency. There was a time when Foraker would have considered it a deadly insult to have coupled his name with that office, for it is an office that means shelving a man. But Foraker is no longer the man of vim and vigor and vinegar. Hanna's thumb is over him.

The Ohio Republican delegation in the Federal Congress, is in Columbus today, getting instruction from the disciples of Mark Hanna as to how that big boss wants them to vote on the speakership. It is singular how easy it is for Hanna to put a collar on each of his chickens and with what fidelity they wear it, and obey the dictates of the man who absolutely owns them.

Gov. Nash is now explaining to the anti-McKisson people why he appointed Theodore Hall to succeed Judge Caldwell deceased, upon the Common Pleas bench. McKisson insisted upon the appointment and as he represented the dominant element, Nash gave him the job and immediately went to framing an explanation to the anti-McKisson people. The sole explanation is that the Ring for the grabbing of every political job within sight, in which Hanna, Cox and Nash are the principal elements, had slated Hall for the position, and no one else had a ghost of a chance at any turn of the road.

If Governor Nash is entitled to credit for preventing the price of soft coal going to \$4 per ton, he is also responsible for the price remaining at \$3.50 per ton. There has been no increase in the wages of miners nor in the shipping tariff, so that the increased price over last year is all profit for the coal combine. This is one result of Governor Nash sending for the attorney of one of the coal carrying railroads instead of for those members of the legislature who were on the verge of "introducing measures which would strike with almost crushing force the alleged combination between certain railroads and mining corporations."—Cleveland Press.

It is undeniable that in Philadelphia fraud in elections is condoned by citizens who in other matters pride themselves upon their integrity. They regard ballot-box stuffing in the light of an amusing and perhaps justifiable expedient instead of denouncing it as a degrading and dishonest practice. John Wanamaker recently characterized Pennsylvania as a "sucken state." That is a harsh term to apply to a great commonwealth. But would a state with a decent respect for public opinion submit year after year to the rule of an oligarchy perpetuated by the grossest fraud and corruption? Has Pennsylvania genuine Republican government if its elections are controlled by men who boast of their skill in padding the returns?—Hampshire Sun.

### ACTIVITIES OF CLUB WOMEN.

Georgia club women have just presented to the state legislature a bill providing against the employment in the factories of children under 12 years of age. This question of child labor in the cotton-producing states is commanding the attention of phil-

anthropologists and economists on all sides, while to club women the efforts of the Georgia women are particularly interesting, inasmuch as they are among the first in the field following the recent recommendation of the General Federation of Women's Clubs on behalf of the improvement of child labor laws over the country.

But elsewhere other battles have begun. Illinois club women, for example, are co-operating with the Chicago Federation of Labor on a stringent child labor measure, modeled after that in Massachusetts, which looks after both industrial and educational interests of the youthful worker. Two thousand copies of a pamphlet setting forth the proposed law were distributed at the recent convention of the Illinois Federation of Women's Clubs, and the matter was otherwise presented by Miss Jane Adams of Hull House—Pittsburg.

The government of New Zealand maintains among its numerous socialistic enterprises a department of life insurance. This has existed for a long time in competition with private companies, but has only in recent years made any great headway. The latest annual report, however, shows that the department wrote insurance during the year aggregating over \$3,100,000. It now carries assets amounting to above \$15,000,000 which, for a colony of less than 1,000,000 people, exclusive of aborigines would indicate that the State has become a very important factor in life insurance in premium income and a decrease in the expense ratio. It is noticeable that the demand upon the department has become almost exclusively for endowment insurance. Practically all the policies written last year were endowments, only three whole life and term policies being sold.

### RAILROAD HUMBLINGS.

Delay in Sale of Road.  
Utica, N. Y., Nov. 20.—This was the date set by the United States Circuit Court for the sale of the New York and Ottawa Railroad, but as an appeal has been interposed no further steps in the direction of disposing of the property will be taken until the Supreme Court has passed on the question. It is said that the Delaware and Hudson Canal Company and the New York Central are both anxious to get control of this road, which touches many Adirondack points and has a valuable right-of-way through other sections of the mountain region.

### A Close One.

Adam Bockey, living south-east of town, had a narrow escape at the Pennsylvania crossing on Pierce street, Tuesday afternoon. He was driving home and was in the rear of several other teams that were waiting to get across the track while the local was doing some switching. As soon as there was an opening the teams started to cross. A cut of cars was sent down the track and came so near running over Mr. Bockey's buggy, that people who saw it say the freight cars pushed the vehicle from the track, barely escaping being run over.—Delphos Herald.

Railroad Matters Discussed.  
Atlanta, Ga., Nov. 20.—The Southern and Southwestern Railroad club held its annual meeting at the Kimball today with a good attendance of representatives of the leading railroads of the territory covered by the association. Among the matters discussed were the following: Nozzle vs. Stack diameter; steam Heat vs. Stoves, and the Vanderbilt Firebox and Tender.

The Lake Erie and Western has sixty miles of new steel, weighing seventy pounds to the yard, in the track and propose to lay fifteen miles more this fall. The material is on the ground. Most of this mileage has also been laid with new cross ties.

Position at Findlay.  
A. M. Snyder, of Castalia Ohio has accepted the position of baggage master at the Lake Erie & Western depot. He will succeed Harry Baker, whose resignation was announced in the Courier Saturday. Mr. Snyder comes highly recommended as an efficient and accommodating man, and will doubtless prove a permanent fixture at the station.—Findlay Courier.

## J. E. PURCELL

Has no Dow Tax Claim on Docket Against Him.

Claim Certified by State Auditor Was Occasioned Only by a Mistake in a Transfer.

Yesterday the Times-Democrat published the list of persons engaged in the liquor traffic who had failed to comply with the Dow tax laws and also mentioned the amounts claimed due the state auditor from such persons, the lists having been certified to the auditor of Allen county and placed on the records in the office of Auditor Geo. Fritz. In this list appeared the name of J. E. Purcell, who according to the state auditor's certified list, was indebted to the state in the sum of \$387.69.

A thorough investigation of this case proves that Mr. Purcell has fully paid both the regular government license and the Dow tax of Ohio, but while he has complied with the laws fully so far as a payment of license is concerned, he could on a technicality, be held to pay the amount certified against him by auditor of the state. When Mr. Purcell purchased the saloon he is now conducting on south Main street, he acquired the property from Pat Mooney and complied with the law fully so far as the payment of licenses is concerned but his attorney neglected to transfer the license from the name of Mooney to that of Purcell, and consequently he has not been properly authorized to engage in the liquor traffic in the full letter of the law. No intent to defraud the state in any manner has been found and the matter having been thoroughly explained to the state auditor the claim against Mr. Purcell has been cancelled and his record as a liquor dealer is perfectly and justly clear.

### CALIFORNIA LETTER.

Pomona, Cal., Nov. 12, 1902.

Times-Democrat Lima, O.  
Sir—Many friends asked me to write them when I got to California but the task is so great that I will abridge the work by writing to the Times-Democrat.

We reached Los Angeles November 3rd and found summer weather, everything is flowers and palms, we like the climate here very much. Except the cool nights and heavy fogs which hang over the country every morning. A heavy snow fell upon the mountains last night, and they say the mountains are 40 miles away, but do not look it. Everything is about double the price in California that it is in Ohio, living is high here and the tourist traffic is so great here that the citizens take advantage in board and rents. Cord wood sells from \$8 to \$10 a cord and is cut from fruit trees or blue gum. A great many Ohio people are here and I find that the California people equal to those in Ohio.

We have been to visit Mr. F. Durbin, J. L. Shook and Mrs. Harriet Parker and daughter Ida. Last Sunday dinner we all dined at Finley Durbin's and were served to a sumptuous dinner prepared by Mr. Durbin's amiable wife and we could not help think of the good old Ohio dinners.

Orange picking will commence about January 1st, and I am told everybody long enough to pick oranges is kept on the run. But ere that time we may run home. We are not going to marry the country here so that we may tear away any time. The climate is fine and property is high. Would not advise anyone to sacrifice a good home in the east without first looking around Orange orchards are rated at \$100.00 to \$1500.00 an acre, wild land \$200.00 and up. We are well except colds, will write again.

## SPORTS.

High School Foot Ball Eleven

Will Contest at Piqua Tomorrow Afternoon.

Boys Are Training Diligently and Hope to Get Into Condition to Give the Findlay Lads a Trouncing.

### May Have His Check Back.

A dispatch from Columbus says: "General Charles Dick, Major A. B. Critchfield, chief clerk in the office of the state inspector of workshops and factories, and W. E. Marsh, Dick's private secretary, recently took a hunt on a Summit county farm.

"The party," so it is reported, bagged 167 quail in three days. The game law of the state allows but 13 quail to be killed in one day by one man and the state game warden has figured that the Dick party killed an average of 18 5/9 quails per man per day, thus breaking the law, if the reports received at this office are correct.

The penalty for killing more than the stipulated number per day is a fine of from \$25 to \$200. Just what action will be taken in the matter is not known."

### Will Nash Fight Geo. B. Cox?

By a singular coincidence on the same day that the attorney general commenced suit against one athletic club at Mansfield to dissolve it on the ground that it has been giving prize fights, another club was incorporated whose charter authorizes it to give sparring exhibitions.

The latter is the Cincinnati Exhibition company of Cincinnati. It has a capital stock of \$300,000 and George B. Cox, Mayor Fleischmann, his brother, Max, August Hermann and Casper H. Howe, are the incorporators.

The question arises, will this club undertake to pull off the boxing contests demanded by the sport loving public of Cincinnati?—Columbus Citizen.

### High School Team to Play.

The Lima High school foot ball team has been revived and tomorrow will go to Piqua where they will meet southern state championship material. The boys notwithstanding the three weeks lay off, are in good condition, and the practice Tuesday evening was long and fierce. They are showing more interest in fact than at any time since the season opened, and if they keep in their present condition they will be able to win from their old rivals at Findlay, with whom a game will be arranged. The line up at Piqua tomorrow will be as follows:

Miller, left end; Weizelbaum, left tackle; Jackson, left guard; Cox, center; Hill, right guard; Jones, right tackle; Cable, right end; Witmer, left half; Laudick, right half; Baxter, quarter back; Reid, full back.

The boys have the following yell to the tune of the "Dutch Company":  
There's a Kenton team,  
And a Van Wert team,  
There's a St. Marys team,  
And a Findlay team,  
But the Lima team  
Is the only team.  
That ever played foot ball on a High School green.

### CHEAP BEEF.

Rib boiling meat five cents a pound, chuck roasts, eight cents a pound, chuck steak, nine cents a pound; at Austina's meat market 454 south Main street.

### ANNOUNCEMENTS.

The first quarterly conference of the Allentown circuit, M. E. church, will be held in the Helsel church, Dec. 13 and 14, Saturday at 10 o'clock; Sunday at 2 o'clock. The membership is earnestly requested to attend. All others are cordially invited.

Conference evangelist, C. E. Rowley and wife, of Toledo, will have charge of a series of revival services, opened by Rev. A. H. Weaver in the Allentown M. E. church next Sunday, November 23. Everyone is cordially invited, and should come, to hear them.

The Pastor.

### UNCLE JOE

Will Draw the Vote from the Ohio Delegation.

Columbus, O., Nov. 20.—Eleven of Ohio's 17 congressmen met here today to decide on who to support for speaker. Dick and Grosvener do not favor any opposition to Cannon. It is likely there will be no Ohio candidate. Burton thinks he ought to have the support of Ohio, and sent Harvey Goswiler, of Cleveland, to present his claims. He did not come to the meeting himself.

## SESSION

Held by Knights of St. John Very Enjoyable.

The local commandary of the Knights of St. John held a very interesting session in their hall last evening, beginning the events of the evening with the initiation of a number of candidates. The secret work was followed by a smoker and a good social session that was thoroughly enjoyed by every one present.

### P. H. T. NOTICE.

All brothers are requested to be at their wigwag on this Thursday sleep for nomination of officers; also pale-faces in the forest.

By order of Sachem.

PIANOS.

The Whitney & Currier Co.

Are offering many advantages to Piano Buyers.

And of the many advantages to be found here is the large selection of good, first class pianos, and the noticeable absence of the cheap trashy kind. Another and very important advantage to buyers, is the most satisfactory prices that these beautiful, well known, standard make pianos, such as The Whitney & Currier Co. are known to handle, are sold for. You can purchase here an honest piano at the price often paid for a very inferior instrument. Any piano that is sold from this house will be exactly as it is recommended to be. Many thousand people in Northern Ohio have found it most satisfactory to deal with this house. You will find it so.

## Lima Officials

Guests of Cincinnati's Marketmaster,

Secureing Pointers for the Benefit of Lima's New Market Place.

City Engineer Toy and Messrs. Bowser, Smith and Vorkamp, Market Place Committee, Take a Junket.

The Cincinnati Enquirer, this morning, contained the following: A delegation of public officials from Lima, Ohio, spent part of yesterday in the city building here getting particulars from Marketmaster Brown in regard to the workings of the Cincinnati markets. They visited some of the markets with him, and in the afternoon went to California, Ohio, to look at the new waterworks now being built there.

The visitors were H. F. Vorkamp, Ed. L. Smith and Dr. M. S. Bowser, of the market committee of the city council, and Walter Toy, city engineer of Lima. They said that, although Lima is one of the oldest cities in the state, it has never had a public market, stands or market house. The people of Lima voted, by a large majority to spend \$12,000 for a new market house. The house is built, and they are all ready to start in the market business, and were here to get pointers on how to do it. Their building is 150 feet long and 75 feet wide. They said they have a population of about 30,000 in Lima, and that the city is growing rapidly. They built 800 new houses last year and 600 the year before, and there isn't a vacant house in the city now.

The people have just voted in favor of a bond issue of \$150,000 for an additional reservoir for their waterworks. Their present reservoir holds 150,000,000 gallons and supplies the city for 50 days. It was built 20 years ago. The new one will have a capacity of 500,000,000 gallons, said City Engineer Toy. They get their water supply from the Ottawa river. The Lima people also visited the Blaine club. They were accompanied by Marketmaster Brown, John J. Duppa of the Cincinnati Butcher Supply Company, and J. P. Humphries of this city.

### PUTTING

The Company at Findlay in Shape.

Col. James I. Ream, of Lima, will be in the city this evening. Col. Ream comes here with the intention of getting the property of Co. A. in shape to turn over to the new commanding officer. To whom this honor will fall is still a question in the minds of the members of the company. Since W. L. David's refusal it has been thought that Lieut. Risser could be persuaded to accept the captaincy. This question will probably be settled this evening. It is to be hoped that steps will be taken to put the company on a first class footing—Findlay Courier.

## CHOICE

Is Left Open to the Man With a Vote.

Must Do the Work or Pay the Money

According to a Section of the Code Which Assesses \$3 on Every Voter for Street Purposes.

The latest that has been discovered in the new code is that under the provisions of section 28. The city council in every municipality in the state may pass an ordinance requiring each able bodied male person between the age of twenty-one and fifty-five, who is not an ex-soldier, a member of the militia or fire department, to perform by himself or substitute in each year, two days labor upon the streets and alleys of such corporation, provided, however, that he may escape such duty by paying into the city treasury the sum of \$3.

Section 28 re-enacts certain sections of the Revised Statutes heretofore applicable to small towns and villages requiring that such work be performed and makes them applicable to every municipality including the large cities heretofore governed by special acts. The sections referred to are 2654, 1 to 14 inclusive.

There are in Lima today, in the neighborhood of 6,000 able bodied men who are affected by the provision referred to and should they all prefer to pay the assessment instead of doing the actual work, it would mean an addition to the street fund of \$18,000. But, as was brought out yesterday in a conversation at the Auditor's office, how is a man going to be compelled to do this work or pay the money in case he refuses. It might be an easy matter to assess the amount against a tax payer, where the burden always falls, but the law makes no provision in taking care of those who have nothing with which to pay the penalty. In free America, you can't compel a man to work unless he be picked up as a common vagrant and sent where he has no other alternative. If it was intended that every man who cast a vote should give so much of his time or money toward keeping up the streets, why didn't the law-makers exact that he produce a certificate at the polls, showing that Section 18 had been complied with? As in more than one instance, this section of the code is likely to prove a dead letter.

The little folks love Dr. Wood's Norway Pine Syrup. Pleasant to take; perfectly harmless. Positive cure for coughs, colds, bronchitis, asthma.

## PUSHING

The Extension of the Western Ohio.

The work on the Western Ohio railway in this city and between this city and Piqua is progressing very rapidly, says the Sidney News. The track has all been laid from the corner of Main avenue and Court street in this city to a point south of the large trestle work south of Lockington with the exception of a few rods just north of Lockington. Large construction gangs are working in this city, just north of Lockington and at the trestle work and just below it. The work of putting in the track on Main avenue as far north as North street was commenced this week. The question of going under the Big Four track on Main avenue will be considered before the road proceeds farther north in this city than North street.

## PLACE

After a Long and Useful Life.

Cares and Burdens Gently Laid Aside

By the Venerable Thomas Morton Who Died at the Home of His Daughter, Mrs. C. F. McNeany.

Thomas Martin, the venerable father of Mrs. C. F. McNeany, who made his home with his daughter at 316 north Pierce street, died at a quarter of ten o'clock this morning.

The deceased was in his 88th year, his birth occurring in Cincinnati, where the chamber of commerce building now stands, on the 13th of March, 1815. From Cincinnati, he went to Piqua, and for 40 years was one of that city's prominent merchants. In March, 1894, Mrs. Martin died and a short time after the deceased came to Lima to make his home with his daughter, who is the only surviving member of the family.

Mr. Martin was possessed of a wonderful constitution, and although a sufferer at frequent intervals with severe attacks of the stomach and heart, he had the recuperative power that brought him back to the full enjoyment of all his faculties. Yesterday he had a return of his old trouble which proved to be more severe than formerly and it was followed this morning by a sinking spell, which terminated in death. The family physician was present, but efforts to revive him proved futile.

Arrangements have been made to hold short services at the house Saturday afternoon at 1 o'clock, conducted by Dr. Thompson, of the Market street Presbyterian church, and the burial, which will be strictly private, will take place at Woodlawn cemetery. The remains of Mrs. Martin will be transferred from Piqua to Lima later.

## SPRINGFIELD

Will Also Get a Share of the Prizes.

Every Guess on the State Vote Will be Divided Many Times.

There isn't a city in the whole state in which greater interest is taken in the total vote for secretary of state than in Springfield, says the Sun, and when it was officially announced yesterday, hundreds went into their pockets to see if they had won. Of course there are the usual large number of winners in Springfield. Within 15 minutes after the official figures had been announced yesterday there must have been a dozen in Springfield who hit the number exactly. The list continued to grow last evening.

Others were reported to have missed it but one, still others but a half dozen. If reports are to be believed, about all the prize money will come to Springfield. This is true of other cities, however, and today we will begin to read everywhere of people who have hit the capital prize. It is estimated that fully 5,000 guesses were sent in from Springfield alone. It will be several weeks, and probably these weeks will wind themselves into months before an announcement is made of the winners, and the amounts they have won.

## A PLEA FOR BETTER PRICES FOR DRILLING.

To oil producers in and around Lima and in general: Gentlemen:—It has come to a time when something ought to be done in regard to better prices for drilling. Everything is exceedingly high priced, all material used by contractors is high priced, tools, cordage, machinery, fuel, teaming, in fact everything.

At the present price paid for drilling there is not a good living in it, saying nothing about saving a dollar to pay for a bad fishing job or to keep a contractor for off days or weeks as the case may be. There are a good many contractors as well as the writer who think that it would be only justice to them, the contractors, to receive at least fifty cents per foot for drilling under the present circumstances.

### VALUABLE BOOK FOUND

Written in the Philippines in the Fifteenth Century.

**ISLANDS ACCURATELY DESCRIBED**

Baro Volume Now Owned by William Spencer of Terrell, Tex., Who Discovered It in an Old Cathedral Near Vigan - Is Bound in Strong Red Maroon Cloth.

William Spencer of Terrell, Tex., has recently returned from the Philippines, where he was connected with the army, says a special dispatch from Fort Worth, Tex., to the St. Louis Globe-Democrat. While stationed at Vigan he went into an old cathedral, which was formerly the show place of the province, and there he found a book, which he brought home with him, and it has proved to be one of great value. An introductory note shows that it was prepared, so far as the descriptive portions go, by Francisco Xavier, a famous Spanish Jesuit missionary, who was born at the castle of Naviero, Navarre, April 7, 1504, and died on the island of San Juan Dec. 2, 1552. He was known as the "Apostle of the Indies." His letters were edited in 1705.

The book was translated into English by William Parties, printer and lithographer, 2, 3 and 6 Santa Ana square. It is a small book of 150 pages, crude in its printing and binding, but the paper and cover show careful work. On the first page appears the following: "The geographical part of this handbook is an authorized translation of the 'Compendio de Geografia de las Islas Filipinas,' by P. Francisco X. Baranera, S. J." Of the inhabitants of the Philippine Islands are of a race called Negritos by the Spaniards and Aetas by the civilized natives. They are still to be found in the interior of the islands, though in daily diminishing numbers. They are of very small stature, of a very black color and have curly black hair. All efforts to civilize them have been in vain." It gives the first discovery of the islands to a European, Magellan, in March, 1521, who arrived that month at Butuan, Mindanao.

The compiler has added notes showing the date of the appointment of the first Spanish governor, Miguel Lopez de Legazpi, during the reign of Philip II in 1565, how Gomez Dasmariñas built the walls of Manila in 1590 and the thorough establishment of the church rule in the provinces. The Chinese insurrections in 1603, the volcanic disturbances in 1641, the terrible earthquake in 1645 and the work of the Chinese filibusters and the English invaders in 1662. The chapters devoted to physical geography and to a description of the provinces are written with a detail that is remarkable to be contained in such a limited work.

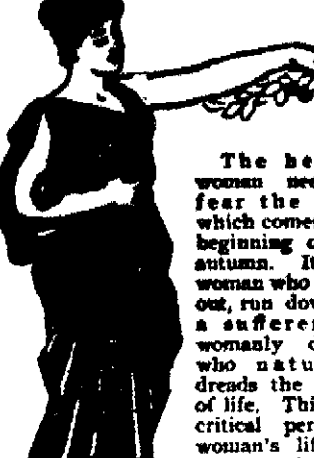

Mr. Spencer spent some time in the islands after closely reading this book, and he says the descriptions are really better than anything he has read in any geography, history, atlas or encyclopedia published. The book is bound in strong red maroon cloth and bears an imprint of a coconut tree, two native huts and a palm tree. The effect to produce these in gilt shows the crude methods employed in the print and book shops of Manila. On his return to America Mr. Spencer was importuned by a San Francisco publisher to allow him to have the book for reproduction, but the request was refused. During his stay in the islands he says he never heard of another copy of the book, and this leads to the belief that it is a rare publication.

### RIVER TO PUMP ITS WATER

Irvington Scheme Proposed in King's River Valley, California.

To make the King's river of central California pump its own water is the interesting plan presented by J. R. Lippincott, resident hydrographer of the United States geological survey, who has recently investigated the possibility of an increased use of that stream for irrigation and other purposes, says a Washington dispatch to the New York Tribune. The King's river valley is one of the richest irrigation sections of the west, the profits reported from the raisin crop alone in 1900, from the section near Fresno, being more than \$2,000,000. Nearly 400,000 acres are already under cultivation and utilize almost all the available flow of the river, but fertile lands remain for which there is not an adequate water supply. This is especially true of the lands on the adjacent foothills of the Sierra Nevada, where high priced citrus fruits can be grown to great advantage.

Mr. Lippincott in his report shows that the construction of reservoirs for the impounding of flood waters on the tributaries would be of value, and he also suggests a plan for the full conservation of the river's water. In the Harlands of the lower valley, commonly known as the delta, the sands and gravels of the soil have become thoroughly saturated through twenty or thirty years of irrigation, so that an abundance of water can be obtained from wells sunk into them. It is estimated that over 300,000 acre feet could be had from this source annually, or sufficient water to foot 600,000 acres to the depth of a foot each year. In close proximity to this supply stand the steep slopes of the Sierras, among whose summits King's river rises. On the upper courses of the river, where the water power possibilities are the best, it is proposed to erect a plant of 1,800 horsepower to generate 2,200 volts of electricity, transmit this power at high tension forty-five miles to the lower valley, harness it to numerous pumping stations in different parts of the delta and so make the river pump its own water, which has been once used in irrigation, rendering it a second time available for the reclamation of new lands. It is estimated that if all the water driven from the pumping plants and the proposed storage reservoirs should be put on new areas it would mean the addition of 200,000 acres of valuable land to the state.

The healthy woman need not fear the change which comes at the beginning of life's autumn. It is the woman who is worn out, run down and a sufferer from womanly diseases who naturally dreads the change of life. This is the critical period of woman's life, and the prevalence of womanly diseases makes it the duty of every woman who would avoid unnecessary suffering to take special care of herself at this time.

The pills which vex so many women at the change of life are entirely cured or cured by the use of Dr. Pierce's Favorite Prescription. It makes weak women strong, and enables the weakest to pass through this trying change with the tranquility of perfect health.

"I have been a very healthy woman, and this time has been very hard with me," writes Maggie Morris, of Munson Station, Clearfield Co., Pa., Box 10. "I am come to the time of change of life, and I have been sick a great deal of late. When Mrs. Jerome moved beside me I was sick in bed, and when she came to see me we were talking over our sickness. Mrs. Jerome told me to try Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,' also 'Pellies.' I got her to bring me a bottle of each and I used them. Before I commenced my remedies I was good for nothing; was in such misery I hardly knew what to do with myself, now I can do all my work myself and feel well."

Dr. Pierce's Pleasant Pellets are easy and pleasant to take.

There is no cough medicine so popular as Foley's Honey and Tar. It contains no opiates or poisons and never fails to cure.

### NOTICE TO BOND BUYERS.

Sealed bids will be received by the city clerk of Lima, Ohio, until 12 o'clock noon, Monday, December 8th, 1902, and opened immediately thereafter, for the purchase of \$150,000 of water works bonds known and designated as "Water Works Bonds of the City of Lima, Ohio, Series D" and issued for the purpose of obtaining money with which to enlarge, extend and improve the present water works plant of the city of Lima, Ohio, as authorized by the electors of said city at a general election held April 7th, 1902.

Said bonds shall be in denominations of \$1,000 each; shall be 150 in number; shall be dated October 1st, 1902, and be made payable as follows: \$10,000 on the first day of October, 1912, and \$10,000 on the first day of October in each and every year thereafter until all shall have been paid. Said bonds shall bear interest at the rate of three and one-half per cent per annum, payable semi-annually, with principal, at same maturities, at the office of the treasurer of said city of Lima, Ohio. No bid for less than par value of said bonds will be considered; and bidders should specify the amount of bonds bid for and the premium, if any, that is offered.

Bidders are required to use a form of proposal furnished by the city clerk; and no bid will be considered unless accompanied by a certified check on a Lima, Ohio, bank, and payable to the city clerk, in the sum of at least five per cent of the amount of bonds bid for. Should the bidder to whom said bonds are awarded refuse or neglect to accept said bonds and pay to the city of Lima, Ohio, the amount of his bid within twenty days after said bonds are ready for delivery, then said deposit will be retained by said city as liquidated damages for such failure.

The right to reject any and all bids is reserved.

### SLANG GOOD, SAYS SCHOLAR

Keeps Adolescent Students From Becoming Tongue Tied

"Boys and girls need slang," it keeps them from becoming tongue tied. Five hundred pupil scholars and severe masters gaped in astonishment at this declaration by Professor G. Stanley Hall, president of Clark university, in a lecture to the summer school at the University of Chicago, says a special dispatch from Chicago to the Philadelphia Press.

"Slang aids the boy or girl of fourteen to nineteen years old to acquire fluency," asserted Professor Hall. "When the emotional side of a boy or girl is being developed during adolescence, midway between the period when speech comes slowly and they lack the power of expression and the time when they begin again to express themselves more freely and easily, the use of slang is essential and ought to be allowed free play."

### NEW VARIETY OF WHEAT.

Yield and Quality Have Attracted Attention in Oklahoma.

Cephus Miller, living twelve miles southwest of Guthrie, Okla., has raised a new variety of wheat that is attracting wide attention, says the St. Louis Globe-Democrat. It is the Futzo-Mediterranean, which was originated by crossing the Futzo on the hybrid Mediterranean.

While his neighbors had a yield of from ten to fifteen bushels per acre Miller's crop averaged twenty-five to forty-five and tests sixty to sixty-one pounds per bushel. No wheatfield attracted so much attention during the fall and winter, as his superior stand and deep green color made better pasturage. This spring, while other fields suffered more or less, his never had a sign of rust.

### A NOVEL ENGINE.

Baltimore and Ohio Has a Machine That Carries Passengers.

A unique engine has recently been completed by the Baltimore and Ohio railroad at its Mount Airy shops in Baltimore. It is designed for the use of officials in making inspection trips. Though called an inspection engine, it really answers the purpose of a whole train. The engine has a small passenger coach constructed on top of the boiler back of the smokestack. The boiler is heavily covered with asbestos and the floor of the car with Brussels carpet.

The seats in the coach are arranged in amphitheater style, so as to give every one in the car a full view of the track and surrounding country. Passengers enter the car by winding stairs on either side of the front pilot. The engine may be readily run in either direction.

### MEGAPHONE FOR STREET CARS.

The Minneapolis Street Railway company experimented recently with the use of a megaphone street announcer, says a dispatch from Minneapolis to the Chicago Record-Herald. The device may be adopted on all cars in Minneapolis. The mechanism of the arrangement is simple. A metallic tube carries the sound to the roof of the vehicle, connecting with the megaphone just inside the car door and delivering the sound clearly and distinctly to the passengers. The motor-man, instead of the conductor, announces the streets under the new plan.

## OUR COUSINS FROM ENGLAND

**Paid Lima a Fleeting Visit on Their Long Tour.**

**A Party of English Gentlemen, Who are Awake to the Fact That They Have Much to Learn, are Interviewed.**

Lima got but a glimpse of a party of prominent Englishmen who are touring the United States in the interest of the mother country's industries, and methods employed in handling large labor associations.

A representative of the Times-Democrat arrived at the C. H. & D. depot this morning in time to meet the gentlemen from across the sea and was received in the private car, which was waiting to be attached to the south bound train for Dayton. They were a fine looking lot of jolly good natured fellows, and while their leisure moments are given up to the enjoyment which unlimited means offered they are on business bent when the opportunity offers to teach them a few things which America has discovered.

Free and easy, good natured and unhampered by notions born and bred under the rule and sway of a country where royalty makes dukes and lords of men, the party strolled the platform or lounged amid the luxuries of the Pullman car. They were not in the least embarrassed by their object in coming to America and did not hesitate to say that there were "some" things which it would be well for Englishmen to copy after.

The spokesman of the party this morning was A. Mosley of London, who registered at the Cambridge hotel, and between the puffs from a briar wood pipe he explained to the Times-Democrat the object of their visit. The advance party arrived about two weeks ago and after they had visited New York, Philadelphia and Washington, they returned to the eastern metropolis to await the coming of the remainder of the investigating corps.

From New York they went to Albany and thence over the New York Central to Chicago, stopping en route at Syracuse, Rochester and Buffalo. Toledo was the next point and from there they came south, Dayton and Cincinnati being the only other cities in Ohio which are to be inspected before the long trip to the western coast.

Mr. Mosley expressed himself as being particularly pleased with the reception they had received everywhere. Manufacturers had thrown open their plants for their full and complete inspection and had insisted on several occasions in entertaining them during their stay in the various cities. Rapid strides have been made in America, which is well known at home, and which the Englishmen are rapidly finding out. It is not the intention to hide behind the bush but come out openly and acknowledge superiority whether it be the making of what has been invented or the invention of mechanism which the world is forced to use.

The fame of the national cash register company at Dayton had long ago reached the ears of all England, and Mr. Mosley was as anxious to make note of the company's philanthropy as he was to visit the plant which has made the Gem city famous. That the Standard Oil Company's big refinery and the Lima Locomotive & Machine works were located in Lima was a fact with which the party was familiar but their schedule did not permit of a stop more than long enough to breakfast.

In regard to the labor question, Mr. Mosley remarked that the situation had been much worse in England than anything that the United States had ever had, but arbitration had been forced by the organizations and order was now gradually being brought out of chaos. He gave it as his opinion that there would be less trouble in the future as labor was a strong man now and demanded that capital should pause and consider in the distribution of wages and profits.

The private car was attached to the regular south bound train which left here at 8:35 and the inspection of Dayton industries will be made in time to permit them to register at Cincinnati this evening.

## BOLD BURGLARS TURN A TRICK.

**Tucker's Jewelry Store and Cunningham's Drug Store Robbed.**

**A Small Amount of Money and a Large Amount of Jewelry Stolen—Entrance Gained Through a Window.**

Some time during last night Ches. Tucker's jewelry store and T. N. Cunningham's drug store, which occupy the same room in the Baxter block, a few doors north of the public square on the east side of Main street, were burglarized by unknown robbers and a few dollars in cash and sixty or seventy dollars worth of jewelry was stolen.

The burglars gained an entrance to the store through a rear window. They first removed a fly screen from the upper sash of the window and then by breaking a pane of glass were able to reach in and unlock the window. After securing what booty they could conveniently reach and carry away, they departed through a rear door, leaving the door open. The discovery of the robbery was made by the owner of the drug store this morning when he opened the front door and found the rear door standing open.

The police were notified and the case was promptly investigated and it was found that most of the conditions of the robbery were very similar to those of the robbery at the drug store. The window was broken and the police were notified.

work was done in a dark space between the high walls of adjoining buildings. From the Tucker jewelry store the burglars secured the following articles:

About two dozen double gold vest neck chains, about two dozen pairs of spectacles with gold filled rims, about one dozen gold plated watch chains and about two dozen pairs of eye glasses with smoked lenses.

Nothing has yet been found by the police that gives promise to lead to the apprehension of the burglars but the officers are inclined to the belief that the work was done by local talent.

## WIFE Says Her Life is in Danger

**And the Court Is Appealed to for Protection.**

**Mrs. Shaffer Wants a Divorce on the Grounds of Cruelty and Neglect.**

**And While the Case is Pending She Asks That the Doors be Barred Against Her Husband.**

Divorce matters have been rather quiet during the past two weeks, but the monotony was broken this afternoon when a petition was filed in which Mrs. Wilhelmina Shaffer pleads for a separation from her husband, Adolph.

A year ago last July, the two were married, but it soon developed that there was little in harmony with what constitutes a happy life. In fact, Mrs. Shaffer declares in her petition that she is in imminent danger of being killed because of the frequent threats on the part of her husband to carry out that idea.

She charges extreme cruelty and says that almost from the day of their marriage, the defendant has almost constantly been under the influence of liquor, has used violent and abusive language and frequently resorted to bodily injury. One particular incident is recited. The plaintiff says that on the 18 of this month the defendant returned home in an intoxicated condition and securing an ax proceeded to smash out the window lights and demolish the furniture. At the same time he threatened to set the house on fire and injure her. As she fears violence at the hands of her husband she asks that pending the divorce suit, he be enjoined from visiting her.

**Bonds Approved.**  
The Van Wert Commissioners were here yesterday in consultation with the commissioners of Allen county, for the purpose of approving bonds issued for the completion of work in which the two counties are jointly interested.

**An Unpaid Claim.**  
The Hercules Torpedo Company through Richie and Richie has brought an action for the collection of \$144 claimed to be due for furnishing material and shooting well No. 10 on the J. Hanthorn lease. The plaintiff has a lien on the defendants property and asks the court that they be enjoined from removing the property until the claim is adjusted.

**Jury at Logger Heads.**  
It took but a few hours to put a statement of the case of the state vs. Wm. Bailey before the petit jury today, but it took at the hour of going to press that it would take a greater amount of time to agree on a verdict. Bailey is the colored man who was indicted on complaint of Clinton Erman, the latter identifying him as the man who compelled Erman to hand over what money and valuables he had at the fair grounds. Bailey has insisted from the beginning that he was innocent and at least a part of jury is undecided, as no report had been made at 3:30 after nearly two hours conference.

**RAWSON  
Gives Western Ohio Railway Franchise.**

The Rawson village council, at a meeting held Monday night, granted the Western Ohio Ry. Co. by whom the trolley line will be constructed between Lima and Findlay, a franchise to pass through the streets of the oil village. Although there has been some opposition to the franchise in the past, it was passed without a dissenting vote.

## PARALYSIS Suddenly Attacked Mrs. Nancy Holmes

**And Death Results Within Less Than an Hour.**

**Was Seventy-Five Years of Age and Had Never Before Suffered a Serious Attack of Any Illness.**

The angel of death visited the home of Mr. and Mrs. D. S. Kemp, at 1012 West Market street, yesterday afternoon at 2:30 o'clock and claimed all that was mortal of Mrs. Kemp's venerable mother, Mrs. Nancy Holmes, aged 75 years. Paralysis was the cause of death and notwithstanding the advanced age of the deceased this was the first attack of a serious nature she ever suffered during her long and useful life. Yesterday she complained slightly of not feeling well and during the afternoon as she was sitting near the stove in the kitchen Mrs. Kemp, who was in an adjoining room, heard her groan slightly and rushed to her, found her in a helpless condition. A couch was quickly brought into the room and the aged lady was placed upon it and a message was hastily sent for a physician but she continued to grow weaker except for a slight temporary rally brought about by the administration of stimulants, and half an hour after the physician arrived she passed quietly and peacefully away.

Mrs. Holmes was born in New York state but moved to Lima, Pa. at an early age. There her children were born, three of whom survive—Daviello Barber, of Elmira, N. Y., M. P. Barber, of Lima, Pa., and Mrs. D. S. Kemp, of Lima. Her oldest daughter, Mrs. S. M. Fletcher, died in Lima in 1891. Two sisters, Mrs. Simeon Babcock of Minnesota, and Mrs. Elizabeth Hurlburt, of Coudersport, Pa., survive her. Mrs. Holmes lived in Portland, Ind. about eight years coming to Lima about a year ago. She was a constant, consistent Christian woman, dearly beloved by all who knew her.

Funeral services will be held at the residence Saturday morning at 10 o'clock. The remains will be consigned to a final resting place in Wood lawn cemetery.

**FORMER  
Young Couple of Lima Married Today.**

Andrew J. Seery and Miss Rose Kamerer two former well known young people of this city, were united in marriage at Norfolk, W. Va., this morning. The marriage ceremony took place in St. Mary's church, Rev. Boherty, the pastor officiating at the marriage ceremony which was followed by a nuptial high mass. The groom is the son of Mr. and Mrs. M. Seery of this city, and is now the manager of the Patent Plaster Co. which is owned by Lima gentlemen. The bride is a daughter of Martin Kamerer, of 644 North Elizabeth street, and is popular among her many friends. They will begin house keeping in that city at once.
